SOP-6

Siren Response — Quick Reference

What to do when the Red Alert sounds — by scenario

Red Alert sounds
Where are you?

Indoors?
GO to protected space
(see SOP-8 priority order)
Sit against inner wall
Wait 10 minutes

In a vehicle?
STOP vehicle, hazards on
EXIT — no protection inside
Enter nearest building, or
lie face down, protect head
Wait 10 minutes

Outside on foot?
ENTER nearest solid building
Go to stairwell or inner room
If no building: lie face down,
protect head, away from vehicles
Wait 10 minutes

🏠 At Home — WITH Mamad

1. Pick up baby/children, go to **Mamad**
2. **Close** blast door, turn handle 90°
3. Verify **steel + glass** windows sealed
4. Sit against **inner wall**, below window line
5. **Wait 10 minutes**

🏠 At Home — WITHOUT Mamad

1. Can you reach **shelter** in time? If yes — grab keys, go bag, GO
2. If no — inner **stairwell** (centre, not top/ground floor)
3. If no stairwell — **innermost room**, max walls, min windows
4. Sit against **inner wall**, below window line, not facing door
5. **Wait 10 minutes**

Never use kitchen/bathroom/toilet — ceramics and porcelain shatter · Never shelter in entrance lobby

🚗 Driving

1. **Pull over**, hazard lights, engine off
2. **EXIT** the vehicle — it offers no protection
3. Enter nearest **building** if reachable
4. If not — **lie face down** away from car, protect head
5. **Wait 10 minutes**

Do not stop on a bridge or in a tunnel

🚌 On a Bus

1. Driver should **stop** and open doors
2. **Exit** the bus — it offers no protection
3. Enter nearest **building** if reachable
4. If not — move away from bus, **lie on ground**, protect head
5. **Wait 10 minutes**

🚶 Outside / On Foot

1. Enter the nearest **solid building** immediately
2. Go to **stairwell** centre or inner room
3. If no building — **lie face down**, protect head
4. Stay away from **vehicles, glass, trees**
5. **Wait 10 minutes**

🏢 In a Public Building (Mall, Office, School)

1. Go to designated **shelter** — follow signs/staff
2. If none visible — inner **stairwell** (centre)
3. Do **NOT** use elevators
4. Do **NOT** go outside — building is safer
5. **Wait 10 minutes**

Stay away from glass panels, atriums, skylights

🛗 In an Elevator

1. Press **nearest floor** button
2. **Exit** as soon as doors open
3. Go to nearest **protected space**
4. If stuck — sit on floor, **centre** of elevator, protect head
5. **Wait 10 minutes** / wait for rescue

NEVER enter an elevator during an alert

⚠️ In a Prefab / Caravan / Wooden Structure

1. **LEAVE** the structure immediately — no protection
2. Enter nearest **solid building**
3. If none reachable — **lie on ground**, protect head
4. **Wait 10 minutes**

👪 With Young Children

1. **Pick up** / gather children immediately
2. Move to **protected space** (standard priority order)
3. **Shield** children with your body against inner wall
4. Keep them **calm** — steady voice, simple words
5. **Wait 10 minutes**

Practice the route as a drill · Keep a comfort item in the Mamad/go bag

♿ Mobility Limitations

1. Move to **pre-designated** protected space
2. Wheelchair: **lock wheels** against inner wall, below window line
3. Use walls, railings, **mobility aids** — steady over fast
4. If stuck — get as **low** as possible, shield head
5. **Wait 10 minutes** / call for help

Pre-clear all routes · Arrange a buddy system with a neighbour

DISCLAIMER: Not an official government resource. Use at your own risk. Based on HFC (Pikud HaOref) publications as of 12 Mar 2026. Official guidance: oref.org.il. Always wait 10 min.

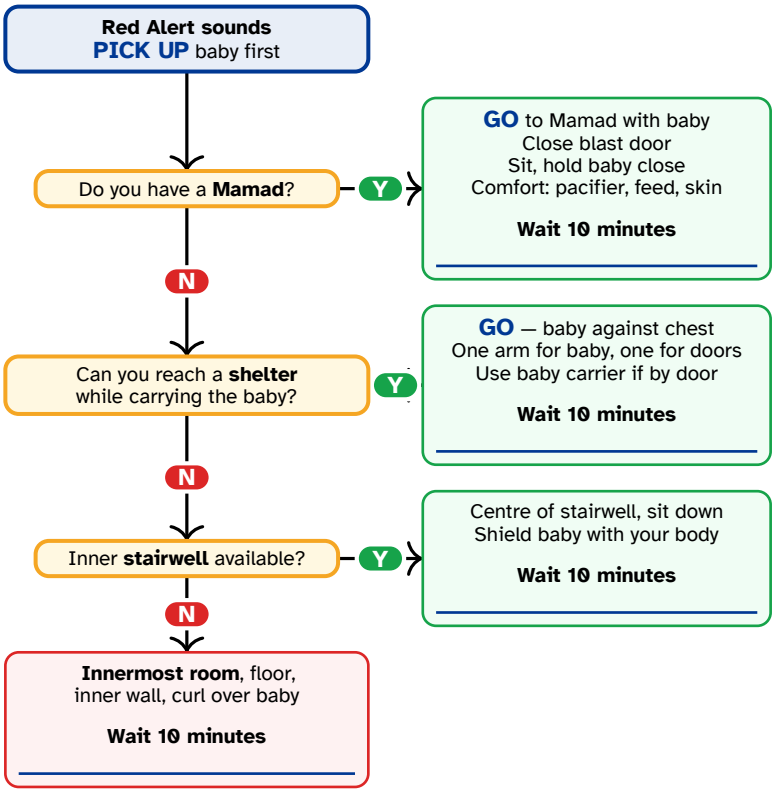
SOP-7

Siren Response — With Infant

Baby 0–18 months · What to do when the Red Alert sounds

Rule #1 in every scenario: PICK UP THE BABY FIRST. Hold against your chest. Everything else is secondary. Leave the stroller behind.



🌙 Night — Baby Sleeping, No Mamad

1. Go straight to baby's room, **pick them up**
2. Do **NOT** get dressed first — baby then shoes/keys
3. If both parents: one takes **baby**, one takes go bag + torch
4. Shelter or stairwell or inner room — **hold baby**, sit down
5. **Wait 10 minutes** — baby may cry, that's OK

Pre-pack a blanket to grab with baby · Room-share during escalations for faster response

🚶 Outside / Walking with Stroller

1. Take baby **OUT of stroller** — hold against chest
2. **LEAVE** the stroller behind
3. Enter nearest **solid building** — stairwell or inner room
4. If no building: **lie face down**, baby under you, shield with body
5. **Wait 10 minutes**

Baby carrier is better than stroller for siren readiness outdoors · Know shelters on regular routes

🚗 Driving — Baby in Car Seat

1. **Pull over**, hazards on, engine off
2. **Unbuckle** harness and lift baby out (faster than detaching seat)
3. **Exit car** — hold baby against chest
4. Enter **building** if reachable, or lie on ground shielding baby
5. **Wait 10 minutes**

Practise unbuckling the harness quickly · Two adults: one grabs baby, one grabs nappy bag

🚌 On a Bus

1. Hold baby securely — take **OUT of stroller**
2. **Exit bus** when doors open — leave stroller on bus
3. Enter nearest **building**
4. If none: move away from bus, **lie on ground** shielding baby
5. **Wait 10 minutes**

Ask other passengers for help if needed

🏢 In a Public Building (Mall, Clinic, Office)

1. **Pick up** baby — OUT of stroller
2. Follow signs/staff to designated **shelter**
3. No shelter? **Stairwell** centre. No elevator.
4. Sit against **inner wall**, shield baby, away from glass
5. **Wait 10 minutes**

At Tipat Halav (baby clinic): ask staff for shelter immediately · You can carry while breastfeeding

Go Bag — Infant Additions

Nappies + wipes · Pacifier · Bottle or formula (pre-measured) · Muslin/blanket · Change of clothes · Snack (if weaning) · Baby carrier (wrap or structured) · Any medication

DISCLAIMER: Not an official government resource. Use at your own risk. Based on HFC (Pikud HaOref) publications as of 12 Mar 2026. Official guidance: oref.org.il. Always wait 10 min.
