SOP-DAY-01

Daytime Readiness Posture

Red Alert SOP — For buildings WITHOUT a Mamad / Mamak

On Your Person

- [ ] **Phone ON — volume ON, location services ON** — Red Alert app installed, configured for your area, notifications enabled
- [ ] **Red Alert browser extension active (if at computer)** — Set to correct alert area; computer not on mute; tested recently
- [ ] **Keys on person** — Front door key accessible — do not leave locked inside
- [ ] **Wallet and ID (Teudat Zehut) on person or in go bag**
- [ ] **Wearing closed-toe shoes suitable for running** — Not sandals, slippers, or barefoot — you may need to sprint
- [ ] **Glasses / contacts on (if needed)**

Go Bag & Exit Route

- [ ] **Baby carrier by front door and ready to grab** — Wrap or structured carrier — hands-free evacuation is far faster than a stroller
- [ ] **Go bag packed and positioned by front door**
- [ ] **Daily bag check completed** — Medications, charged torch, water bottle, phone charger, copy of ID
- [ ] **Hallway and exit route clear of obstructions** — No furniture, shoes, or items blocking path to front door
- [ ] **Front door can be opened quickly** — Not double-locked or chain-latched

Situational Awareness

- [ ] **Nearest 3 shelters — locations known and routes verified** — Walked the route recently; know backup if primary is locked
- [ ] **Time to shelter for your area — known and memorised** — Check HFC Alerts tab for your locality
- [ ] **Protected space priority order — understood** — Mamad > Shelter > Inner stairwell > Inner room (see decision flowchart)
- [ ] **Children / dependents — know their current location** — Ready to move them or confirm they are in a protected space
- [ ] **News / situation scan completed** — Every ~3 hours; adjust posture if escalation detected
