SOP-14

Accessibility & Disability Equipment

Emergency equipment for visual, hearing, and mobility impairments — based on HFC guidelines

Visual Impairment

- ☐ **Headphones + charger** (with backup batteries)

  For audio alerts and communication

- ☐ Equipment labelled accessibly

  → large handwriting | luminous tape | Braille

- ☐ **Emergency contacts** in Braille or large print

  Phone numbers of family, support organisations

- ☐ **Guide dog equipment**

  → food | medication | water bowl | toy | leash | mouth guard | thick socks

  Socks prevent injury from broken glass/debris

- ☐ **Guide dog documents**

  → licence | certificates | vaccination records | vet contact

- ☐ Dog wears collar with **guide dog identification** tag

Hearing Impairment

- ☐ **Hearing aid** + spare batteries or independent charger
- ☐ **Cleaning kit + drying box** for hearing aid
- ☐ **FM system / personal amplifier** (if used routinely)

  Including speakerphone connecting to mobile

- ☐ **Paper + writing utensils**

  For communication when lip-reading is not possible

- ☐ **Sign language translator list**

  Names and contact numbers

- ☐ **Communication mediation tag**

  Tag stating need for communication mediation

- ☐ **Identification card** for sign language speakers

  Card with key messages, e.g. 'I only read lips' or 'I use sign language'

- ☐ **Home Front Command app** installed with visual alerts

  Do not rely on audible sirens alone

Mobility — Wheelchair Users

- ☐ **Puncture repair kit**

  → spare inner tubes | pump | patch kit

- ☐ **Heavy gloves**

DISCLAIMER: Not an official government resource. Use at your own risk. Based on HFC (Pikud HaOref) publications as of Mar 2026. Official guidance: oref.org.il.

For turning wheels on rough roads, debris, broken glass

- ☐ Routes to protected space **pre-cleared**

  No rugs, cables, furniture blocking path

- ☐ **Grab rails** or support along route

  Wall-mounted rails, furniture positioned for support

Mobility — Electric Wheelchair / Scooter

- ☐ **Additional batteries** available

  Fully charged; enough for 72 hours

- ☐ **Charger** accessible
- ☐ **Non-motorised wheelchair** as backup

  In case of power failure or battery depletion

- ☐ **Backup power** for life-critical medical equipment

  → backup batteries | generator | UPS

  If electricity is required for survival

Speech & Communication Difficulties

- ☐ **Communication mediation tag** worn

  Tag indicating need for communication assistance

- ☐ **Pre-written emergency cards**

  Key messages: name, condition, what help is needed, who to call

- ☐ **Assistive communication device** + charger

  With backup batteries

General — All Disabilities

- ☐ **Medical ID** — necklace or bracelet

  For caregiver-dependent individuals; identifies condition and needs

- ☐ **Medical status sheet** from family doctor

  Medications, allergies, what help is needed, what to avoid

- ☐ **Hygiene products**

  Specific to individual needs

- ☐ **Buddy system** with neighbour arranged

  Someone who will check on you or help you move during a siren

- ☐ **Neighbour** has key or knows how to reach you
- ☐ Device batteries + chargers for **all assistive tools**

  Hearing aids, mobility devices, communication devices
