SOP-11

Home Preparation

Securing your home and protected space — based on HFC guidelines

Protected Space (Mamad) — Inspection

- ☐ **Blast door** opens and closes easily

  Handle turns 90° upward; double lock functions

- ☐ No **light penetration** when door is sealed

  Indicates proper seal

- ☐ Door **rubber insulation** present and not dried out

  Replace if cracked or brittle

- ☐ **Steel outer window** opens and closes easily
- ☐ **Glass inner window** functions correctly

  Single-wing: verify both locks engage. Double-wing: remove both wings during escalation periods and store outside room

- ☐ **Ventilation pipes** — rubber insulation intact

  Steel cover screws tighten fully

Protected Space — Contents

- ☐ No **flammable, hazardous, or toxic** materials stored
- ☐ No **glass, ceramic, or porcelain** items that could shatter

  → no mirrors | no vases | no ceramic decorations

- ☐ **Shelves and heavy items** fixed to walls

  Nothing that can fall during impact

- ☐ **Gas tanks** are 3+ metres from protected room walls

  Report violations to gas company and local authority

- ☐ **Emergency supplies** stored inside or nearby

  See Emergency Supplies Kit SOP-9

- ☐ Room is **ventilated** (if used as bedroom)

  Mamad must not be used as kitchen, bathroom, or washroom

Secure Furniture & Objects

- ☐ **Bookcases and shelves** secured to walls

  Use wall anchors or anti-tip brackets

- ☐ **Heavy appliances** locked in place

  → washing machine | refrigerator | oven

  Lock wheels or secure with straps

- ☐ Heavy objects placed in **low positions**

  Nothing heavy or fragile in high positions

DISCLAIMER: Not an official government resource. Use at your own risk. Based on HFC (Pikud HaOref) publications as of Mar 2026. Official guidance: oref.org.il.

- ☐ No **heavy objects near windows**
- ☐ **Danger areas** in home identified and treated

  Glass panels, tall unsecured furniture, hanging heavy items

Hazardous Materials

- ☐ **Paint, solvents, cleaning supplies** in closed vessels

  Stored away from heat sources

- ☐ **Flammable materials** stored safely

  Not in or near protected space

- ☐ **Gas supply** checked

  → private home: spare tank full | shared building: tank > half full

  Verify integrity and capacity regularly

Infrastructure & Escape Routes

- ☐ **Electrical connections** integrity checked
- ☐ **Gas connections** integrity checked
- ☐ All family members know **gas + electricity shutoff** locations

  And know when and how to shut off

- ☐ **Evacuation route** planned

  → primary exit | secondary exit (back door / porch / emergency stairs)

- ☐ Evacuation routes **clear of obstacles**

  No furniture, portable objects, or flammable materials blocking paths

- ☐ All family members know **all routes**
