SOP-2

Nighttime Readiness Posture

Red Alert SOP — For buildings WITHOUT a Mamad / Mamak

👥 *Best done as a pair: one person reads aloud, the other verifies. Alternate periodically.*

Before Bed Setup

- ☐ **Personal needs** tended to — showered, teeth brushed, fed

  Take care of these before bed — you want to be ready to move the moment you wake

- 📰 **News / situation** scan

  Check current threat level — assess if it is safe to sleep at home tonight

- 📱 **Phone**
  - ☐ Charging or charged
  - ☐ **Not** off and **not** in airplane mode
  - ☐ DND / silent / regular — all OK *(alert apps override DND)*
  - ☐ Location services on
  - ☐ Verify Red Alert app has notification + override permissions

- 👕 **Clothes** laid out by bed

  Full outfit ready to throw on in seconds — shirt, pants, underwear

- 👟 **Closed-toe shoes** by bed

  Ready to step into immediately; not across the room

- 🔦 **Torch** within arm's reach

  On nightstand — not buried in go bag

- 👓 **Glasses** by bed (if needed)

  Same spot every night — grab without thinking

- 🔑 **Keys** accessible and in known location

  By bed or on hook by front door — not buried in a coat pocket

Go Bag & Exit Route

- 🎒 **Go bag** packed and positioned by door
  - ☐ Headlight / torch
  - ☐ Medications
  - ☐ Charged power bank
  - ☐ Phone charger
  - ☐ AM/FM radio
  - ☐ Umbrella *(winter / rainy season)*

- 🔌 **Power bank** on charge

DISCLAIMER: Not an official government resource. Use at your own risk. Based on HFC (Pikud HaOref) publications as of Mar 2026. Official guidance: oref.org.il.

Near go bag or by front door

- Hallway and **exit route** clear

  Can navigate in the dark without tripping

- **Front door** can be opened quickly

  Not double-locked; key at hand if needed

Sleep Conditions

- **No earplugs** — hearing must be clear

  You must be able to hear the siren and phone alert

- Route to nearest **shelter** — walkable in dark

  Have you walked it at night? Know alternate if primary is locked?
