SOP-4

Shelter Check

Find and verify your nearest shelters BEFORE you need them

Identify Shelters

- ☐ Nearest **public shelter** — location identified

  Check municipality website, building committee, or neighbours

- ☐ **Second** nearest shelter — location identified

  Backup in case primary is locked or full

- ☐ **Third** nearest shelter — location identified

  May be a public building with a Mamam (institutional protected room)

- ☐ Building **stairwell** assessed as fallback

  Windowless? Which floor is safest? Clear of obstacles?

Verify Access

- ☐ **Primary shelter** physically visited

  Some shelters are locked; verify you can get in or know who has the key

- ☐ **Secondary shelter** physically visited
- ☐ **Opening hours** / access restrictions known

  Some shelters are locked at night or require a code

- ☐ **Key holder** or access code obtained

  Building committee, municipality, or designated keyholder

- ☐ Shelter is **maintained** and usable

  Not used as storage, flooded, or blocked — report issues to municipality

Know the Route

- ☐ Route to **primary shelter** — walked and timed

  Can you make it within your area's time-to-shelter?

- ☐ Route to **secondary shelter** — walked and timed
- ☐ Route walked **at night**

  Is it lit? Can you navigate it in the dark with a torch?

- ☐ Route is **step-free** or accessible (if needed)

  Kerbs, stairs, uneven ground — can everyone in your household make it?

- ☐ **Obstacles** identified and noted

  Locked gates, construction, narrow passages

Time to Shelter

- ☐ **Time to shelter** for your area — looked up

  Check HFC Alerts tab at oref.org.il — enter your locality name

- ☐ Realistic **time test** completed

  Timed yourself and family at a fast walk, not a sprint

- ☐ If shelter NOT reachable — **fallback plan** set

  Inner stairwell or inner room identified and prepared
